

Berluto Pressure reducing valves

Type no.'s

Product
<p>DRV 403-6 / DRV 402-6 DVGW pressure-reducing valves for water (domestic water supply) Inlet pressure to 16 bars, outlet pressure 1.5 to 6 bars DN 10 to DN 65</p>
<p>DRV 408 Pressure-reducing valve for water - high outlet pressure Inlet pressure to 25 bars, outlet pressure 1.5 to 9 bars DN 15 to DN 65</p>
<p>DRV 303 / DRV 308 With screwed coupling Pressure-reducing valves for water - normal/high outlet pressure Inlet pressure 16/25 bars, outlet pressure 1.5 to 6/9 bars DN 15 to DN 32</p>
<p>DRV 403-H / DRV 425 Pressure-reducing valves for water - high outlet pressure Inlet pressure to 25 bars, outlet pressure 1.5 to 12 bars / 2 to 20 bars DN 15 to DN 65</p>
<p>DRV 403-N Pressure-reducing valve for water - low outlet pressure Inlet pressure to 16 bars, outlet pressure 0.2 to 2 bars DN 15 to DN 65</p>
<p>DRV 411 / DRV 412 / DRV 413 Flanged pressure-reducing valves for water Various pressure ranges DN 15 to DN 125</p>
<p>DRV 414 Flanged pressure-reducing valve for water - high outlet pressure Inlet pressure to 25 bars, outlet pressure 4 to 12 bars DN 15 to DN 125</p>
<p>DRV 200 / DRV 200-G Pressure-reducing valves for compressed air Inlet pressure to 25 bars, outlet pressure 1.5/0.8 to 8 bars DN 8 to DN 50</p>
<p>DRV 225 / DRV 226 Pressure-reducing valves for compressed air - high outlet pressure Inlet pressure to 40/60 bars, outlet pressure 1.5 to 20 / 20 to 45 bars DN 8 to DN 50</p>
<p>DRV 250 Pressure-reducing valve for compressed air - low outlet pressure Inlet pressure to 25 bars, outlet pressure 0.2 to 2 bars DN 8 to DN 50</p>
<p>DRV 230 Flanged pressure-reducing valve for compressed air Inlet pressure to 25 bars, outlet pressure 1.5 to 8 bars DN 8 to DN 50</p>
<p>DRV 235 Flanged pressure-reducing valve for compressed air - high outlet pressure Inlet pressure to 30 bars, outlet pressure 1.5 to 20 bars DN 8 to DN 50</p>
<p>Accessories: Manometer</p>
